

ANANYA PAPPU

AI & ML Engineer | +91 90006 78980

[gmail/ananyapappu.2327@gmail.com](mailto:ananyapappu.2327@gmail.com) | [linkedin/ananyapappu2327](https://www.linkedin.com/in/ananyapappu2327) | [github/ananyap2024](https://github.com/ananyap2024)

PROFILE SUMMARY

Aspiring AI and Data Science professional with hands-on experience in Machine Learning, Data Analytics, Agentic AI, and Python development. Skilled at analyzing data, uncovering meaningful insights, and building practical solutions through academic and real-world projects. Strong problem-solver with a solid foundation in AI, statistics, and software development, eager to leverage data and technology to drive informed decisions and business impact.

EDUCATION

Swami Vivekananda Institute of Technology

Bachelor of Technology in Computer Science Engineering (AI & ML)

2023 - 2027

CGPA : 8.6

TECHNICAL SKILLS

Languages: Python, Java, HTML/CSS, SQL, Javascript, Typescript
Core Concepts: Machine Learning, Data Analysis & Visualization, UI/UX Design
Developer Tools: Git, GitHub, Visual Studio Code, PyCharm, Kaggle
Libraries: Numpy, Pandas, Matplotlib, Scikit-learn
Frameworks: React, Tailwind CSS, Node.js, Fast API

EXPERIENCE

Data Analyst Intern | Unified Mentor Pvt Ltd

Python, Pandas, Matplotlib and Streamlit

March 2026 – May 2026

[dashboard1](#) | [dashboard2](#)

- Developed and deployed an interactive dashboard to analyze course enrollment records on the EduPro platform. Processed 10,000+ enrollment records to generate key insights with dynamic filtering across various categories and levels.
- Designed and deployed a customer engagement and retention solution. Evaluated 10,000 banking customer records using 5 retention-focused KPIs, identifying 621 high-value customers at risk of churn and revealing an 85.89% churn rate among customers with 3+ products; delivered insights to support targeted retention campaigns and customer engagement initiatives.

Hackathons

- Participated in 10+ hackathons.
- Led teams in 3+ hackathons

PROJECTS

InterviewAce — Resume Screening & Assessment Platform | React, Node.js, MongoDB, APIs

Mar 2026

- Led the development of an AI-powered interview preparation and HR recruitment platform built as a full-stack web application. It enables candidates to practice interviews and helps HR teams conduct efficient recruitment processes.
- Models Used: NLP - Generation, Evaluation, Similarity & Classification Model.

Datagen — Synthetic Dataset Generation Framework | React, TypeScript, Fast API

Feb 2026

- Built a synthetic dataset generation framework for generating privacy-safe synthetic datasets, featuring a FastAPI-based multi-agent pipeline with LLM-driven generation, schema validation, bias analysis, and export-ready datasets for ML fine-tuning.
- Models Used: Pydantic , LLM.

Crime Data Visualization Dashboard | Python, Matplotlib, Pandas, CSV

Feb 2023

- Built interactive CLI tool analyzing crime records across 20 Indian states, processing 1,000+ data points with comparative year-over-year analysis across multiple crime categories using Pandas and Matplotlib.
- Implemented data visualization pipeline generating bar charts, pie charts, and line plots with customizable filtering, enabling rapid trend identification and regional crime pattern analysis.

ACHIEVEMENTS & OTHER ACTIVITIES

College Tech Fest

- Winner of Technical Debugging Competition & Programming Challenge

Google Developer Groups- 36hr Hackathon

- Finalist in Agentic AI hackathon organized by GDG Hyderabad, and developed FocusFlow, an AI-powered productivity assistant

College Editorial - Editorial Head

AIML Club - SYNAPSE - Vice President

- Conducted IT workshops & Hackathons

Leadership - Led technical teams in 3+ hackathons

CERTIFICATIONS

Microsoft - Azure AI Fundamentals (AZ-900)	Mar 2026
IBM SkillsBuild - Artificial Intelligence Fundamentals	Feb 2025
IBM SkillsBuild - Communication and Personality Dynamics	Feb 2025

STRENGTHS

- Time Management
- Adaptability
- Team Collaboration
- Organized
- Dedicated
