PROFILE SUMMARY

Aspiring AIML professional with hands-on experience in Machine Learning, Data Analytics, Agentic AI, Python, SQL, and Artificial Intelligence. Proficient in data analysis, exploratory data analysis (EDA), predictive modeling, statistical analysis, data visualization, and AI-driven application development. Skilled in leveraging scalable, data-driven solutions through academic and real-world projects. Strong foundation in machine learning algorithms, statistics, problem-solving, software development, and model evaluation. Eager to contribute to data-driven decision-making, AI solutions, and business intelligence in a collaborative environment.

EDUCATION

Swami Vivekananda Institute of Technology

Bachelor of Technology in Computer Science Engineering (AI & ML)

2023 - Present

CGPA : 8.6

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript, TypeScript, HTML/CSS
Databases & BaaS: MySQL, Firebase, Supabase
Core Concepts: Machine Learning, Data Analysis & Visualization, UI/UX Design
Developer Tools: Git, GitHub, GitLab, Visual Studio Code, PyCharm
Libraries: Numpy, Pandas, Matplotlib, Scikit-learn
Frameworks: React, Tailwind CSS, Node.js, Fast API

EXPERIENCE

Data Analyst Intern | Unified Mentor Pvt Ltd

Python, Pandas, Matplotlib and Streamlit

March 2026 – May 2026

[dashboard1](#) | [dashboard2](#)

- Developed and deployed an interactive EduPro analytics dashboard, processing 10,000+ enrollment records with dynamic filters to generate actionable course enrollment insights.
- Built a customer engagement and retention analytics dashboard by analyzing 10,000 banking customer records across 5 retention KPIs, identifying 621 high-value at-risk customers and an 85.89% churn rate among customers with 3+ products to support targeted retention strategies.

Hackathons

- Participated in 10+ hackathons
- Led teams in 5+ projects

PROJECTS

DATAGEN — Synthetic Dataset Generation Framework | React, TypeScript, Fast API

Feb 2026

- Built a synthetic dataset generation framework for generating privacy-safe synthetic datasets, featuring a FastAPI-based multi-agent pipeline with LLM-driven generation, schema validation, bias analysis, and export-ready datasets for ML fine-tuning.
- Models Used: Pydantic , LLM.

RR — Author Website & Publishing CMS | React, TypeScript, Supabase, PostgreSQL, TanStack

June 2026

- Developed a full-stack author website and publishing CMS featuring an immersive literary catalog, book showcases, downloadable resources, reader-submitted errata management, newsletter and contact workflows, and an integrated dashboard for managing manuscripts, publications, and digital assets.

ETHOSAI — Intelligent Healthcare Smart Check-In System | React, TypeScript, Express, PostgreSQL

July 2026

- Built a real-time healthcare check-in platform with QR-based patient registration, live queue management, wait-time tracking, and dedicated workflows for patients, receptionists, and healthcare providers.
- Models Used: Web Speech API

ACHIEVEMENTS & OTHER ACTIVITIES

College Tech Fest

- Winner of Technical Debugging Competition & Programming Challenge

Google Developer Groups- 36hr Hackathon

- Finalist in Agentic AI hackathon organized by GDG Hyderabad, and developed FocusFlow, an AI-powered productivity assistant

Solo Hackathon - Reached top 5 in 12Hr Solo Hackathon

College NewsLetter - Editorial Head

AIML Club - SYNAPSE - Vice President

- Conducted IT workshops, Events & Hackathons

Leadership - Led technical teams in 5+ hackathons & projects

CERTIFICATIONS

Microsoft - Azure AI Fundamentals (AZ-900)	Mar 2026
IBM SkillsBuild - Artificial Intelligence Fundamentals	Feb 2025
IBM SkillsBuild - Communication and Personality Dynamics	Feb 2025

STRENGTHS

- Time Management
- Adaptability
- Team Collaboration
- Organized
- Dedicated
